INDEPENDENT AUDITORS' REPORT

To the Mayor and City Council
City of Crawfordville, Georgia

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Crawfordville, Georgia as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the budgetary comparison information, and each major fund of the City of Crawfordville, Georgia as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical text. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 14, 2014, on our consideration of the City of Crawfordville, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

As management of the City of Crawfordville, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2013.

Financial Highlights

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Crawfordville's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

The *statement of net assets* presents information on all the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Crawfordville is improving or deteriorating.

The *statement of activities* follows the *statement of net assets* and presents information showing the changes in the net assets during the fiscal year. The statement presents all underlying events, which give rise to the change, regardless of the timing of the related cash flows. Some included items, such as accounts payable, will produce changes in cash in a future fiscal period.

The *notes* provide additional detail concerning the financial activities and financial balances of Crawfordville, Georgia. Additional information about Crawfordville's accounting practices and investments are some of the items included in the *notes*.

Both of the government-wide financial statements distinguish functions of the City of Crawfordville that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Crawfordville include general government, public safety, health and welfare, public works, and culture and recreation. The business-type activities of the City of Crawfordville include a water distribution system, sewer and solid waste collection.

The City of Crawfordville is an equal opportunity provider and employer.

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascrusda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Crawfordville, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Crawfordville can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements.

The City of Crawfordville maintains one governmental fund, referred to as the General Fund. The General Fund is a major fund. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenue, expenditures and changes in fund balances.

The City of Crawfordville maintains one proprietary fund. Proprietary funds report, in great detail, the same information presented as business-type activities in the government-wide financial statements for the Enterprise Fund, governing utilities. The Enterprise Fund is a major fund.

The City of Crawfordville adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

Government-wide Financial Analysis

The largest portion of the City's net assets reflects its cash position at the end of the year, and the value of its water and sewer system. The cash position is generally highest at year-end, because of December tax receipts. The assets of the utilities are capital assets used to provide services to citizens, and hence not available for future spending.

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Crawfordville, assets exceeded liabilities by \$4,339,133 at the close of fiscal year 2012 and assets exceeded liabilities by \$4,257,584 at the close of the most recent fiscal year.

The General Fund is the chief operating fund of the City of Crawfordville. At the end of fiscal year 2012, unreserved, undesignated fund balance of the General Fund was \$188,834. At the end of the most recent fiscal year, unreserved, undesignated fund balance of the General Fund was \$222,194, which was also the total fund balance. The fund balance increased by \$ 33,360 from year-end 2012.

General Fund Budgetary Highlights

The bond covenants for the City's revenue bonds require the City to establish a Reserve Fund; i.e. a bond sinking fund. This Reserve Fund is to be funded by the City depositing monthly an amount equal to one-tenth of the monthly bond payment (\$200.30). At the end of ten years, the Reserve Fund would be fully funded and City payments to it would cease. In 2006, the City elected to fully fund the Reserve Fund from currently available reserves. This decision prevents the \$200.30 monthly cost from having to be passed on to our customers.

Capital Asset and Debt Administration

The City General Fund has no long-term debt. The City Enterprise Fund has 40-year Sewer Revenue Bonds in the amount of \$410,228 in 2013. The City began the year with two outstanding long-term water system improvement loans from Georgia Environmental Finance Authority (GEFA), which amounted to \$190,380 and \$89,638, respectively, at the end of 2013.

Major Expenditures This Year

Differential settlement of the foundation of the wellhouse at the oldest city well caused its floor slab and walls to suffered major damage. It was determined that the old wellhouse could be demolished, and a new one built in its place, for little more than the cost of stabilizing the original foundation, and jacking the floor slab back into place. Therefore, the existing wellhouse was removed, the foundation stabilized, and a new building erected for a 2013 expenditure \$15,172.

Anticipated Expenditures in Future Years

As part of the transition from a wastewater pond to a wastewater treatment plant, the City of Crawfordville was required to remove environmental hazards relating to the abandoned pond. At this time, all sludge previously deposited in the pond has been removed and properly disposed of. The final step in closing this pond requires that its bottom be encapsulated with a layer of soil. The contract for this project has been awarded and work is expected to be completed in 2014.

CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Crawfordville, Georgia (the City) accounts for its financial position and results of operations in accordance with generally accepted accounting principles (GAAP). The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements in which case, GASB prevails.

The City of Crawfordville has adopted GASB Statement No. 34 *Basic Financial Statements and Management Discussion and Analysis for the State and Local Governments*. This statement established financial reporting requirements for state and local governments within the United States. As a part of this statement, there is a reporting requirement regarding the local government infrastructure (roads, bridges, curbs, etc.). This requirement permits a Phase III government an option of reporting the government's infrastructure retroactively. The City of Crawfordville, which is a Phase III government, has opted not to report its infrastructure retroactively.

The Reporting Entity

The City operates under a City Council and Mayor form of government and provides the following services: public improvements and general and administrative services. In addition, the City operates water and sewer public utilities for the incorporated and surrounding areas.

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. Component units are legally separate organizations for which the elected officials of the primary government (The City of Crawfordville) are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based upon the application of these criteria, no potential component units are included in the reporting entity.

Basic Financial Statements

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize primary activities as either governmental or business-type. The government-wide statements focus on the sustainability of the City as an entity and the change in aggregate financial position resulting from activities during the fiscal year, whereas the fund financial statements focus is on the major funds. Non-major funds are summarized into a single column. Neither fiduciary funds nor component units that are fiduciary in nature are included in the government-wide financial statements.

In the government-wide Statement of Net Position, both the governmental and business-type activities column are presented on a consolidated basis by column. The activities are reflected on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both gross and net costs by functional category, which are being supported by general government revenues. The Statement of Activities reduces gross costs by related program revenues. Program revenues include (a) charges for services which encompass fees charged to external parties for the use of goods or services, (b) operating grants and contributions which are restricted to the operational requirements of a function or business-activity, (c) capital grants and contributions which are restricted to capital projects of a function or business-type activity. These program revenues are directly associated with the function (public safety, streets, and so forth) or a business-type activity in which it benefits. The net costs of the function or business-type activity are covered by general gross revenues which include taxes, interest and investment earnings.

CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The City does not currently support an indirect cost allocation system. No administrative fee is charged by the General Fund to the other operating fund.

Under grant contract agreements, the City may use funds to support a specific program by the use of cost-reimbursement grants, block grants, and general revenues. As expenses for a specific program are incurred, the City may use both restricted and unrestricted assets. The City's policy is to use cost-reimbursement grant revenues first followed by the funds from block grants and general revenues.

The governmental fund's major fund statements are presented on a current financial resource and modified accrual basis of accounting. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statement's governmental column, a reconciliation is presented following each statement. The reconciliation explains the adjustments necessary to transform the fund based financial statements into the governmental column of the government-wide presentation.

Internal service funds of a government are presented in summary form as part of the proprietary fund financial statements. The financial statements of internal service funds are consolidated into the governmental column of the government-wide presentation; however, the City of Crawfordville does not currently have any internal service funds.

Fiduciary funds are presented in the fund financial statements by type. These funds are not incorporated in the government-wide statements. The City of Crawfordville does not currently have any fiduciary funds. GASB Statement No. 34's focus is on the City as a whole and the fund financial statements of governmental and business-type activities, as well as the fiduciary funds. Each presentation provides valuable information which can be analyzed to enhance the usefulness of the information.

Basis of Presentation-Fund Accounting

The accounts of the City are organized on the basis of individual funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into generic fund types and broad fund categories as follows:

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

TSPLOST Fund – The TSPLOST Fund accounts for the monies received by the City for their participation in the Transportation Special Local Option Sales Tax (TSPLOST).

The City reports the following major enterprise fund:

Water and Sewer Fund – The fund accounts for the operations of the water and sewer system. The fund is financed and operated similar to a private business enterprise, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the City on a continuing basis be financed or recovered primarily through user charges.

CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets, referred to as the flow of current financial resources measurement focus. General capital asset acquisitions are reported as expenditures in the governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are other financing sources.

Local option sales taxes and special purpose local option sales taxes are considered measurable when they become due and payable to the City from intermediary collecting governments and are recognized as revenue at that time.

Property taxes, business and occupation taxes, and investment earnings are recorded when earned, which is when they are both measurable and available. It is anticipated that taxes recognized as revenues will be collected soon enough after year end to pay current expenditures and liabilities, with such a period not exceeding sixty days, except under unusual circumstances. Intergovernmental revenues received but not earned are recorded as deferred revenues. Licenses, fines, penalties, and miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include: (1) accumulated unpaid vacation, sick pay, and other employee amounts which are not accrued; and (2) principal and interest on general long-term debt which is recognized when due. The City does not account for prepaid expenses or inventories, because of the small amounts of these items.

Government-wide and Proprietary Fund Financial Statements

The government-wide financial statements and the proprietary fund financial statements are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned, and their expenses are recognized when they are incurred, which is the flow of economic resources measurement focus.

Unbilled Water and Sewer Fund utility services receivable are recorded at year end. Debt incurred by the enterprise fund which is expected to be paid with the resources of that fund is reported in that fund as a liability.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and delivering goods in connection with the proprietary funds on-going operations. Operating revenues include charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation of capital assets. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Budgets and the Budgetary Process

An annual balanced budget is legally adopted for the General Fund. The City utilizes the following procedures in establishing the budgetary information reflected in the financial statements:

Prior to November 1, the City Clerk submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted by the City to obtain taxpayer comments.

CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Prior to November 1, the budget is legally enacted through passage of an ordinance. The departmental budgets are established as the legal level of budgetary control at which any revisions that alter the total expenditures of any department or fund must be approved by the City Council. Budget amendments are adopted at the regular City Council meeting during the budget year.

The General Fund annual budget is legally adopted on the modified accrual basis, and differs from generally accepted accounting principles in its classification and order in which line item expenditures are presented. Formal budgetary integration is employed as a management control device during the year for the General Fund. Under Georgia law, appropriations lapse at year end.

The City prepares an annual flexible budget for the Water and Sewer Fund, with revenues sufficient to operate and maintain the system and service its bonded indebtedness.

Budget amendments are adopted at the regular City Council meetings during the budget year.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. The City does not utilize encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, as a reservation of fund balances.

Cash and Cash Equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are stated at cost or amortized cost, which approximates market value.

Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded in the year of purchase in both government-wide and fund financial statements.

Inventory

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Inventories in the Water and Sewer Fund consist primarily of supplies and are not considered material to the financial statements.

Inter-fund Transactions

During the fiscal year, transactions occur between individual funds. These inter-fund receivables/payables are classified as "due from other funds" or "due to other funds" on the balance sheet of the fund financial statements and "internal balances" on the Statement of Net Assets of the government-wide financial statements

All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statement presentation,

CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES- Continued

Capital Assets

Property, plant and equipment are stated at original cost. Where cost could not be determined from available records, estimated historical cost was used to record the estimated value of the assets. Capital assets acquired or constructed for general governmental operation are capitalized at cost. Interest costs on governmental fund construction projects are capitalized.

Assets acquired by gift or bequest are recorded at their estimated fair market value at the date of transfer. The extent, if any, to which such estimated amounts differ from actual values has not been determined.

Additions and improvements which significantly extend the useful life of an asset are capitalized. Minimum capitalization costs are \$10,000 for all categories of capital assets. Other costs incurred for repairs and normal maintenance that do not add to the value of the capital asset or materially extend capital assets' lives are capitalized. Property, plant and equipment acquired for proprietary funds are capitalized in the respective funds to which it applies.

Property, plant and equipment constructed or acquired with Special Purpose Local Option Sales Tax Capital Projects Fund resources will be transferred to either the General Fund or the Water and Sewer Fund upon completion of the various projects as inter-fund transfers.

GASB Statement No. 34 required the reporting and depreciation of new infrastructure expenditures effective with the beginning of the implementation year. Infrastructure assets consist of certain improvements other than buildings, such as roads, sidewalks, and bridges. Infrastructure capital assets acquired after December 31, 2001 are recorded at historical cost. The City has opted to depreciate these assets, since these assets will necessarily be limited, and a system of inventorying, preserving and maintaining them has not been implemented. Thus the modified approach to depreciation has not been elected.

Depreciation has been provided over the estimated useful lives using the straight-line method of depreciation. The estimated useful lives of each major class of depreciable capital assets are as follows:

	<u>Years</u>
Buildings	25-30
Building improvements	25-30
Equipment	5-10
Vehicles	3-5
Specialized use equipment	2-10
Utility systems	10-75
Infrastructure	25-75

Compensated Absences

It is the City's policy to not permit employees to accumulate earned but not used vacation and sick pay benefits. There is no liability for unpaid accumulated vacation or sick leave since the City does not have a policy to pay any amounts when employees separate from service with the City.

Fund Equity

The fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

**CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013**

NOTE 2 - DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

As of December 31, 2013, the City had the following investments and maturities:

<u>Investments</u>	<u>Maturity</u>	<u>Fair Value</u>	<u>Credit Rating</u>
<u>Primary Government</u>			
Certificates of deposit	March 23, 2014	\$ 52,356	-
<u>Business - Type Activities</u>			
Certificates of deposit	March 23, 2014	\$ 66,172	
Certificates of deposit	February 11, 2014	24,036	-
Total Business - Type Activities		<u>90,208</u>	
Total		<u>\$ 142,564</u>	

Interest Rate Risk - The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – State statutes authorize the City to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime banker’s acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

Custodial Credit Risk – Deposits – Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, The City of Crawfordville will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. The City had \$201,432 of deposits with financial institutions, which is insured by the FDIC.

Custodial Credit Risk – Investments – Custodial credit risk for investments is the risk that, in the event of failure of the counterparty, the City will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities.

Concentration of Credit Risk - The City places no limit on the amount that the City may invest in any one issuer.

CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 3 - PROPERTY TAXES

Property taxes were attached as an enforceable lien on property as of January 1, 2013. Taxes were levied on or about November 20, for the calendar year on assessed property values. In 2013, the tax bills were mailed on December 18, 2013, and were due February 21, 2014. An allowance is not established for delinquent taxes because of the small amount of taxes receivable. The tax receivables are limited to properties located in the City of Crawfordville. Collectability of the taxes historically has not been affected by the local economy.

Property taxes are recognized as revenue when they become available and anticipated to be collected soon enough after year end to pay current expenditures and liabilities. A summary of the tax levy is as follows:

Millage rate	16.73 mills (net of rollbacks)
Tax digest	\$ 6,606,865
Tax levy	\$ 110,533

Taxes receivable at December 31, 2013 totaled \$83,512.

NOTE 4 – CHANGE IN CAPITAL ASSETS

A summary of changes in capital assets, based on information currently available is as follows:

Depreciation expense was charged to business-type activity as follows:

Water and Sewer Fund	<u>\$ 158,064</u>
----------------------	-------------------

NOTE 5 – COMMITMENTS AND CONTINGENT LIABILITIES

The City is subject to possible legal actions in the nature of claims for damages to persons and property, civil rights violations, and other similar types of actions arising in the course of normal City operations. In the opinion of City management, after consultation with legal counsel, the ultimate outcome of these possible legal actions will not have a material impact on the financial position of the City.

As of December 31, 2013, the City was not involved in any material matters of litigation, which, in the City attorney's opinion, would have a material effect on the City's financial statements.

**CITY OF CRAWFORDVILLE, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013**

NOTE 6 – INTERFUND TRANSACTIONS AND TRANSFERS

Due From/To Other Funds

Due from	Due to General
Enterprise	\$ 2,245
Total	\$ 2,245

The interfund balances represents amounts owed, other than charges for goods and services due in less than one year.

Transfers In/Out

Fund Transferred To	Transferred From General
TSPLOST	\$ 50
Enterprise	2,295
Total	\$ 2,345

Transfers are used to move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 7 – LONG-TERM DEBT

Governmental activities

For the year ended December 31, 2013 there was no long-term debt attributable to governmental activities.

Business-type activities

Debt under business-type activities consists of the following:

	Balance December 31, 2012	Additions	Deletions	Balance December 31, 2013	Due Within One Year

The notes are expected to be paid with resources of the proprietary funds and thus are reported as liabilities of those funds.

City Management feels that the City is in compliance with all its debt covenants.

NOTE 8 - RISK MANAGEMENT

The City is exposed to various risks of losses related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The City manages its business risks through commercial insurance coverage. The risks borne by the City are general liability, surety, and workers compensation. The City does not provide health insurance coverage for its employees.

The City has joined together with other municipalities in the state as part of the Workers' Compensation Self-Insurance Fund. The Georgia Municipal Association administers the Workers' Compensation Self-Insurance Fund. As part of the Workers' Compensation Self-Insurance Fund, the City is obligated to pay all contributions and assessments as prescribed by the Fund, to cooperate with the Fund's agents and attorneys, to follow loss reduction policies established by the Fund, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the Fund being required to pay any claim of loss. The City is also to allow the Fund's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of the loss protection furnished by the Fund.

The Fund is to defend and protect the members of the Fund against liability or loss as prescribed in the member governments' contracts and in accordance with the workers' compensation laws of Georgia. The Fund is to pay all costs assessed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

The general liability aggregate limit is \$3,000,000, with a personal injury limit of \$1,000,000. The employee blanket bond is \$10,000. Workers compensation coverage is \$100,000 for bodily injury for each occurrence, with a policy limit of \$1,000,000. The Workers Compensation coverage is a participant in the Georgia Municipal Association Risk Pool, where in the City shares in the risk of any pro-rata losses incurred by the Pool.

During the year ended December 31, 2013, the City paid no claims. The City is not aware of any claims that the City is liable for (up to the \$1,000 deductible) which were outstanding and unpaid at December 31, 2013. No provision has been made in the financial statements for the year ended December 31, 2013 for any estimate of potential unpaid claims.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 9 - JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the thirteen county east central Georgia area, is a member of the CSRA Regional Commission (RC) and is required to pay annual dues thereto. Membership in a RC is required by the Official Code Annotated (O.C.G.A.) Section 50-8-34 which provides for the organizational structure of the RC in Georgia. The RC board membership includes the chief official of each county and municipality of the area. O.C.G.A. 50-8-39.1 provides that the member governments are liable for any debts or obligation of a RC. Separate financial statements may be obtained from:

CSRA Regional Commission

SUPPLEMENTARY INFORMATION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Mayor and City Council
City of Crawfordville, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, and each major fund of the City of Crawfordville, Georgia as of and for the year ended December 31, 2013 and the related notes to the financial statements, which collectively comprise the City of Crawfordville, Georgia's basic financial statements, and have issued our report thereon dated May 14, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Crawfordville, Georgia's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Crawfordville, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Crawfordville, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. 2013-1 and 2013-2.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Crawfordville, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Crawfordville, Georgia's Response to Findings

City of Crawfordville's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. City of Crawfordville, Georgia's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**CITY OF CRAWFORDVILLE, GEORGIA
SCHEDULE OF FINDINGS AND RESPONSES
DECEMBER 31, 2013**

I. Summary of Auditors' Results:

- A. The auditors' report expresses an unmodified opinion on the financial statements of City of Crawfordville, Georgia.
- B. Two significant deficiencies and no material weaknesses were disclosed during the audit of the financial statements are reported in Part II below.
- C. No instances of noncompliance material to the financial statements of the City of Crawfordville, Georgia which would be required to be reported in accordance with Government Auditing Standards, were disclosed during the audit.

II. Findings Related to the Audit of the Financial Statements of the City of Crawfordville, Georgia are as follows:

Finding 2013-1:

Criteria:

Account transactions should be correctly recorded prior to the start of the audit.

Condition:

Accounts required adjustment to meet generally accepted accounting principles.

Cause:

Certain transactions were not properly stated at the start of the audit process.

Effect:

The general ledger required adjustment to fairly state certain account balances in accordance with the Generally Accepted Accounting Principles in the United States.

Auditors' Recommendation:

To improve internal control and operating efficiency, management should establish policies and procedures to properly state account balances prior to starting the audit of its financial statements.

Management's response:

Significant improvements have been made to eliminate the need for audit adjustments.

Management has established policies and procedures to properly record the transactions of the City. Additional oversight and approval procedures have been approved by City Council and implemented to reduce the need for audit adjustments. These procedures include a monthly review of the financial activities and budget process of the City.

The Capital Asset schedule is maintained by the City's Auditor under a separate engagement. After approval by management, the entries to record capital asset additions, capital asset deletions and depreciation expense have been made as audit adjustments. These entries are considered closing entries and are made during the audit process to more efficiently manage the audit and capital assets.

Consultations with the City's auditor will be made throughout the year. A pre-audit meeting will be scheduled to discuss the upcoming audit and address areas that may need adjustment. If adjustments are needed, they are to be made prior to the start of audit fieldwork.

Auditors' Comment:

The City is a very small municipality. Additional management oversight procedures have been implemented to reduce the risk of misstatement to an acceptable level.

**CITY OF CRAWFORDVILLE, GEORGIA
SCHEDULE OF FINDINGS AND RESPONSES
DECEMBER 31, 2013**

II. Findings Related to the Audit of the Financial Statements of the City of Crawfordville, Georgia are as follows: (Continued)

Finding: 2013-2

Criteria:

The accounting department should have adequate separation of duties.

Condition:

There is limited separation of duties in the accounting department of the City of Crawfordville.

Cause:

The City has a limited number of staff available to properly segregate duties.

Effect:

Initiation, approval, and recording of transactions are performed by the same person.

Auditors' Recommendation:

Management should adopt policies and procedures that promote adequate segregation of duties. When adequate segregation cannot be obtained due to limited staff size, management should adopt additional approval and oversight controls to mitigate risk of loss or misuse of the City's assets to an acceptable level.

Management's Response:

The City has separated functions to the maximum amount feasible with a two person staff. Additional procedures including management oversight have been implemented to mitigate the risk associated with the lack of segregation of duties.

Auditors' Comment:

The City is a very small municipality. To obtain adequate separation of duties, the City would have to hire additional accounting and supervisory staff. Additional management oversight procedures have been implemented to mitigate the risk associated with the lack of segregation of duties.

IV. Prior Audit Findings Related to the Audit of the Financial Statements of the City of Crawfordville, Georgia:

Finding 2013-1 and 2013-2 were findings during the audit year ended December 31, 2012.
